COURSE OFFERING

Variance Analysis Reporting Using Proteus Envision

LOGISTICS

Duration

4 Hours

Delivery

Instructor-led (in-person or online)

Student PCs are required for hands-on participation and student exercises

Class Size

Up to 15 Students

Prerequisites

*A basic familiarity with Proteus Envision is recommended but not required*

WHY TAKE THIS COURSE?

Designed specifically for Control Account Managers (CAMs), this course will equip you with the tools and techniques needed to master root-cause analysis and craft clear, impactful VARs. Learn to identify cost and schedule variances, perform thorough impact assessments, and propose effective corrective actions—all while adhering to the IMPR Format 5 or IMPDAR narrative summary required for government contracts. Through engaging real-world examples, hands-on exercises, and expert feedback, you'll gain the confidence to deliver precise and actionable reports that keep your programs on track.

This course is for organizations that use Proteus Envision software as part of their Earned Value management system.

WHO WILL BENEFIT?

Control Account Managers who are responsible for producing Variance Analysis Reports. Others who may participate in the process, including Program Managers, Integrated Product Team (IPT) Leads, Program Controls / EV Analysts or Program Financial Analysts.

Enterprise Management Specialists

What Will I Learn?

- Explain the significance of Variance Analysis Reports (VARs) in managing cost and schedule performance

- Describe the IMPR Format 5 or IMPDAR narrative summary and why it's used in government contracts

- Define what constitutes a variance and how to calculate it

- Describe methods for identifying the underlying causes of variances

- Assess the effect of variances on the overall program

- Identify actions to address the root causes of variances

- Avoid common mistakes when writing VARs

- Use Proteus Envision Dashboard Apps to prepare VARs:

    - Review variances and enter narratives in the Variance Analysis Report app

Pinnacle Training

Pinnacle offers a wide variety of training options, from introductory classes to advanced project and portfolio management concepts, including Earned Value Management (EVM), as well as vendor partner software training. We specialize in developing customized training solutions to fit your organizational needs.

What sets Pinnacle's training methodology and process apart from others in the industry is an increase in user adoption of processes and tools. Because we understand that providing training relevant to users' roles and responsibilities is critical to ensure successful implementations of EVM, project management tools, and maintaining internal best practices, we can tailor them to your unique business environment. This enables you to put it into practice right away, realizing the ROI much faster than traditional off the shelf courses.

Our team-based workshops are a great way for your project execution team to learn and understand essential project management concepts.
